| Higher Secondary Education (12th Grade) – 88%                             | 2020 – 2021         |

## Technical Skills

- **Programming Languages:** Python, JavaScript, Dart
- **Web Technologies:** HTML5, CSS3, React
- **Mobile Development:** Flutter, Android Development
- **Databases:** MySQL, Firebase
- **Tools & Technologies:** Flutter, Visual Studio Code, Trae
- **Operating Systems:** Linux, Windows
- **Other Skills:** IoT Development, UI/UX Design, Power Bi

## Projects

- |  |      |
|--|------|
| • <b>Meal Circle</b> - Flutter Mobile Application  | 2025 |
| A food donation and discovery platform connecting donors with shelters and bachelors in need, reducing food waste while helping communities. <i>Technologies: Flutter, Firebase, Figma</i>                       |      |
| • <b>AI Contract Generator</b> - Web Application   | 2025 |
| An intelligent legal document generation tool that creates customized contracts based on user inputs with AI-powered template customization. <i>Technologies: ReactJS, AI APIs, nodejs</i>                       |      |
| • <b>Weather App</b> - Python Application  | 2023 |
| A real-time weather tracking application providing current conditions, forecasts, and detailed meteorological data for multiple locations. <i>Technologies: Python, Weather API, flask</i>                       |      |
| • <b>Radar System</b> - IoT Project  | 2023 |
| An ultrasonic-based radar system using Arduino that detects objects in a 180-degree range and displays their position on a graphical interface. <i>Technologies: Arduino, Ultrasonic Sensors, Processing IDE</i> |      |

## Certifications

- Flutter Development (Faithnet Technologies)
- ReactJS Development (Cambtech)
- IoT Development (Chennai Softtech)
- Digital Media Publication Tools (IIR)
- Mobile App Design (Udemy)

## Hobbies & Interests

- Playing outdoor and indoor games
- Volunteer work
- Exploring new technologies
- Contributing to open-source projects
